Pin Configuration

Meyer has discontinued their 6 pin wire harness for the lamps that look like the ones above. If you have genuine Meyer lamps and the ends of your harness are bad you can replace them with our part #74615. Both ends will have to be cut and spliced. Order two if you are doing both lamps. **74615 - 6-Plug Connector \$6.64**

The Quick Mount Plow Cart's simple T-design and casters, make the removal of your plow easy and effortless. You no longer need to lift or try to drag around the plow. Plus, by being able to remove your plow in minutes, you can save the life of your truck by stopping the wear and tear of having the plow on during normal everyday use! Easy to assemble, easy to store, and easy to take with you wherever you may need it. Incorporates a small hydraulic jack to help in aligning plow.

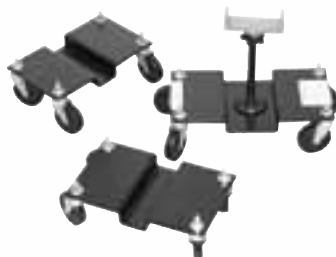

- Remove your plow in minutes
- No more lifting the plow by hand
- Easy to move once on the cart
- Less wear and tear on you and your truck
- No hassle to put the plow back on
- Lightweight and easy to store
- Compact and portable

Plow Dolly

Pull up, Hook up, and be on your way in less than five minutes with the Snow Plow Dolly™

Two Styles

Standard-Duty for plows up to 8' (750 lbs.)
Heavy-Duty for 9 and 10 ft. plows (1200 lbs.)

- 3 Powder-coated heavy steel bases
- No special tools needed. Just hook the plow, raise it up and go.
- Allows you to easily store your snow plow in areas you normally wouldn't.
- Adjust and keep the plow at the proper height with the Plow Level-R™ attachment.
- Rolls over grass or stones.
- Eliminates aches, pains, and frustrations when trying to hook up your plow in freezing weather.

153-0300 - Heavy Duty Snow Plow Dolly™ includes heavier dollies (1/4" plate steel), Casters and "Plow Level-R" system to easily move 9' and 10' plows that can weigh as much as 1200 lbs. **\$160.00**
153-0100 - Standard Duty Snow Plow Dolly™ For plows up to 750 lbs. (up to 8' plows) Includes three piece dolly system and "Plow Level-R" attachment. **\$129.00**

Storage Brackets

for Meyer E-Z Mount Lift Frames

153-0750 - Quick Mount Lift Frame Storage Brackets safely stores your lift frame and plow for Meyer E-Z Mount Lift Frames. (30 easy step: 1: Mount brackets to frame; 2: Remove lift frame from truck; 3: Load lift frame on to rear of A-frame, tilt forward and attach chain to lift arm. Now your lift frame is attached to your plow and ready for storage. **\$62.40**

MILL SUPPLY SNOW PLOW REPLACEMENT PARTS

XTENDOR™ Newly designed PlowGuard™ for light-duty trucks
REDUCES BLADE CHANGES UP TO 400%

The same technology that has revolutionized the highway and municipality snow removal industry, by increasing blade life up to 400%, is now available to fit smaller applications such as Meyer, Western and Fisher plows.

The PlowGuard-Xtendor features a unique carbide matrix wear edge on both the bottom and blade end. Both edges add extreme strength which reduces blade wear and blade changes drastically. Call today to equip your light-duty trucks with the PlowGuard-Xtendor before the snow flies.

- 153-0125** - Plow Guard Xtendor, Pre-punched w/1/2" square holes. **\$134.00/pr**
Fits most smaller Meyer plows plus some Western & Fisher.
- 153-0127** - Plow Guard Xtendor, Pre-punched w/1/2" square holes. **\$165.10/pr**
Fits Western Pro Plus plows

QUICKMOUNT TRIP LOCK

Give your Full-Trip Moldboard **Trip-Edge Performance...**

Quick Mount's® Trip Lock increases your plow's efficiency with patent-pending technology:

- Minimizes moldboard rollover
- Increases cutting edge contact
- Reduces amount of times you dump a load of snow
- Save fuel and time by not having to re-plow the same area

153-0775	Quick Mount® Trip Lock system with mounting hardware kit	\$168.00
153-0776	Replacement hardware kit	\$7.56

Fits these model plows with 3 or more springs

INSTALL DRIVEWAY MARKERS IN SECONDS

with the EZ ROD DRIVER

With just one tool, you can quickly install snowplow rods or driveway markers. No longer will you need a hammer to drive the rods or markers into the ground. Instead, make your hole by simply stepping on the peg on the side of the EZ Rod Driver. Then turn over the tool, slide it over the rod and drive the rod into the ground by sliding the device up and down. This simple three step process enables you to install rods quickly and easily whether you have a few rods to install or many.

If the ground is not frozen, rocky or hard, use the EZ Rod Driver as a one step tool by preloading the rod into the hole of the tool and after turning it over and placing the rod on the ground, slide the tool up and down to drive the rod into the ground as deep as you desire. Fits rods up to 3/8" diameter.

Part No. 98-825 \$29.95

Pro-Wings reduce trail off and add 20% width to your blade

SALE THRU
12/31/11
Buy 1 set at \$194.95 ea.
Buy 2 sets at \$179.95 ea.

**Not for use
on Poly Plows**

PW-22 — Pro-Wing Attachment
(Includes rubber cutting edges)
\$227.00 / set

RE-20500
Replacement
Rubber
Cutting Edge
\$25.65 (each)

By adding 20" of blade width you can reduce plowing time 25-50%. Trailoff is reduced and problem areas such as parked cars or moving snow across a lot now becomes manageable.
Pro-wings fit 98% of pickup mounted snowplows. Installation time is a minimal 2 hours with only three pins to remove or replace the wings in seconds.
Tripping action on your plow is not affected and the long lasting rubber edge helps prevent damage to the wings.
Pro-wings are not recommended for Meyer® 2 Meter, Western® 8-1/2' or, any brand 9' or 10' plows, except the Meyer® 9' plow.

Underseat Emergency Kits
